AVANTECH YOU

by Hettich

AvanTech YOU is a design-focused thin-walled drawer system. It allows an unparalleled amount of individualisation, exceptional quality and performance, and an innovative approach to construction.

Hettich is proud to bring you AvanTech YOU from Europe to the New Zealand industry. We look forward to seeing the stunning interior solutions it helps to create.

The 13mm drawer profile in 4 side heights presents a sleek aspect. All adjustments and fittings are housed internally for an uninterrupted inner and drawer side.

Design focused additions, including DesignCapes and Design Profiles, ensure AvanTech YOU is the perfect drawer range for New Zealand's bespoke build culture.

Where colour has been the focus in all other aspects of interior design, now too is it customisable in and outside your drawers.

Matching interior organisation and waste management solutions are available as a final touch for every project.

THE AVANTECH YOU DRAWER

AvanTech YOU is distinguished by its slim 13mm profile and full, uninterrupted drawer sides.

AvanTech YOU's standard New Zealand range includes:

- Four side heights with no gallery rail, 101mm, 139mm, 187mm and 251mm
- Anthracite and white standard colour options
- The ability to tailor drawers by choosing unique colours or materials
- Internal drawers, which sit behind existing fronts for more storage and a clean design
- Inlay drawers, which use varied material in the drawer fronts or sides for a distinct aesthetic (as pictured right)
- Two runners, Quadro and Actro
- 4 weight load options (runner dependant), 10kg, 30kg, 40kg and 70kg
- AvanTech YOU runners can also be used on timber drawers.

INCOMPARABLE DESIGN FEATURES

AvanTech YOU provides a huge amount of flexibility in colour, shape and material, letting you design a stunning solution for any brief. Working components vanish into the slender drawer side for a truly clean look.

This timeless design base is enhanced by features that make individualisation easier than ever.

- Colour accents through Design Profiles for AvanTech YOU
- Drawer sides of any colour through newly released DesignCapes
- Adaptors for use with thin drawer fronts, allowing for many materials available in a 10mm thickness.

DESIGN PROFILES

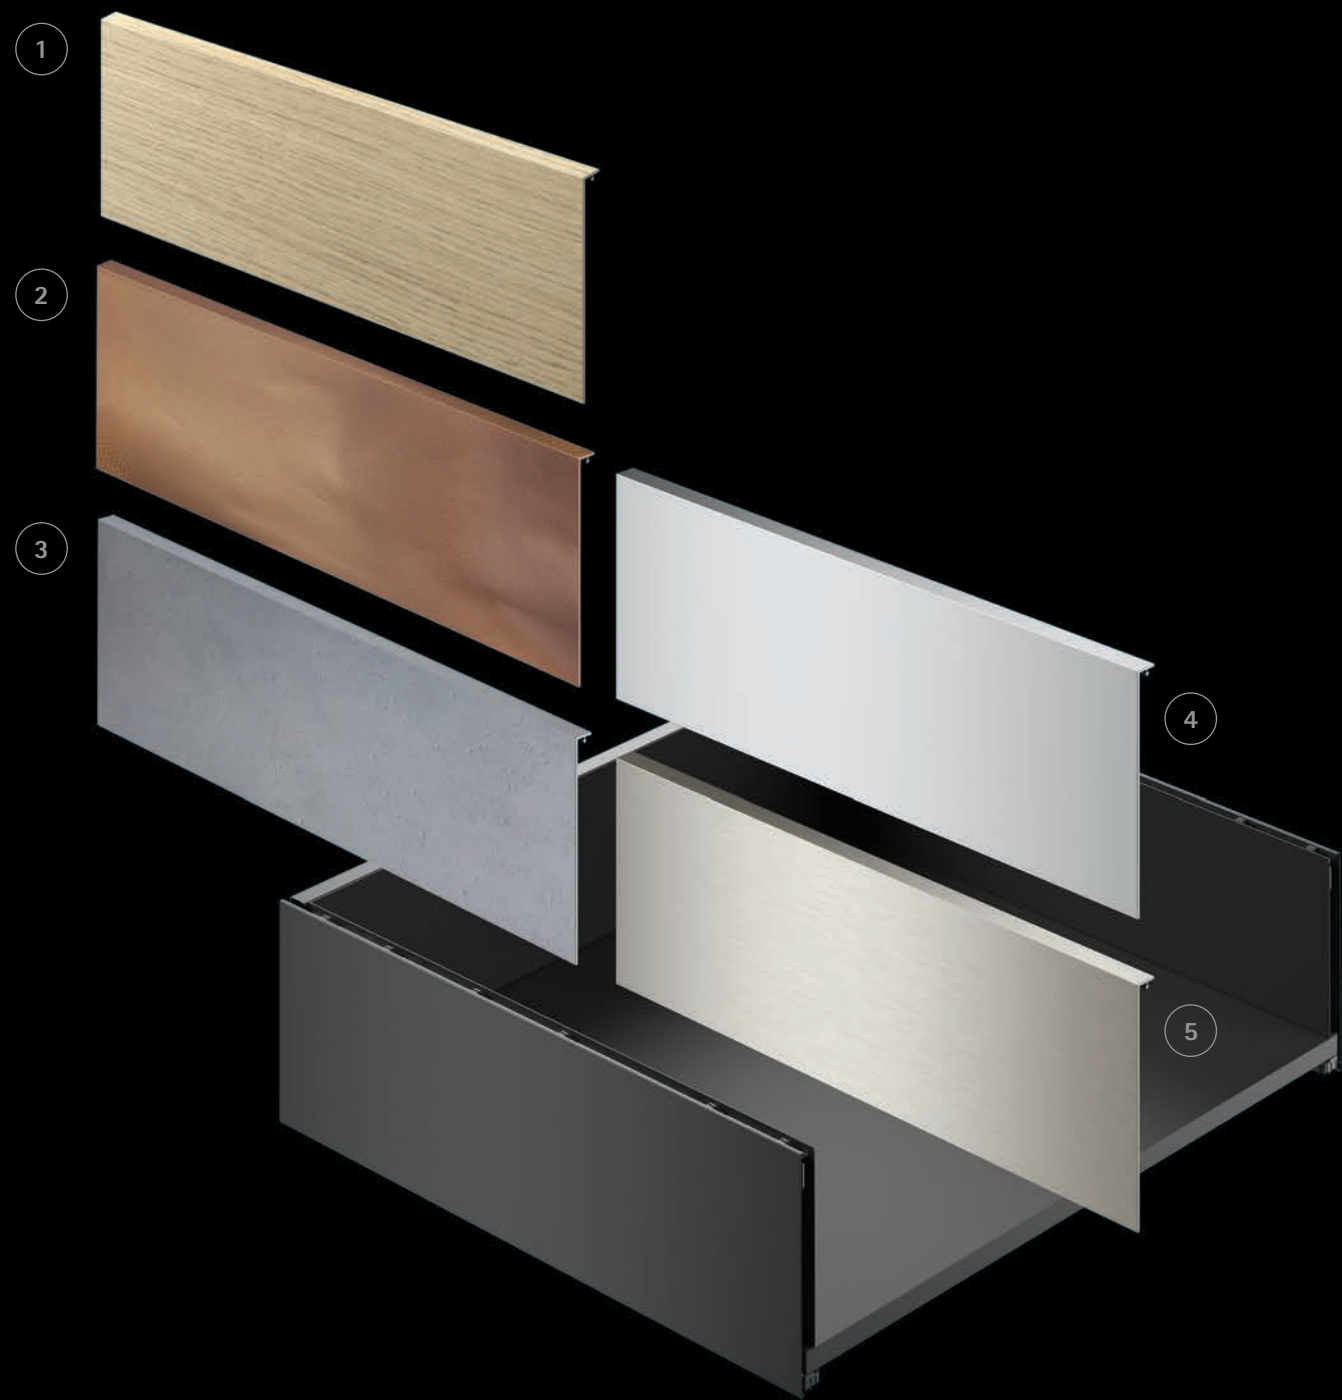

An opportunity to add a colour accent, or match with existing drawer sides. Design Profiles clip neatly to the top of your drawer side hiding the tilt adjustment. Profile colours include white, silver white, silver anthracite, aluminium, stainless steel, chrome, walnut or oak.

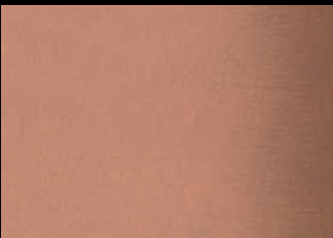

DESIGN PROFILE ACCENT COLOURS	DESIGN PROFILE MATCHED COLOURS
1 Walnut	6 Anthracite
2 Oak	7 Silver*
3 Chrome	8 White
4 Stainless Steel	
5 Aluminium

INTRODUCING DESIGNCAPES

DesignCapes for AvanTech YOU are interchangeable cloaks attached to the drawer sides. Our modern colour set includes Aluminium, Stainless Steel, Oak, Hammerblow Copper and Concrete. But your designs are not limited by us. The aluminium cape can be powder-coated for any finish you, or your customer, need.

ACTRO YOU

A SMOOTH-RUNNING

The runner brings the premium feel needed to finish a truly luxury living experience. AvanTech YOU offers a choice of two runners with an identical drilling pattern for broader application in different living areas, and to cater to a wide range of customer investment.

QUADRO YOU

EXPERIENCE

The runner gives furniture absolute perfection you can see, feel and hear. One drawer system, two runners and an identical drilling pattern make it possible to create a wide variety of furniture designs for different functions.

The characteristics of the runner ensure your extra wide drawers are wellbalanced.

Or, allow you to have an angled drawer front and unequal drawer side lengths while still being able to have a Push to open silent or soft close functionality.

The strength and facility of the runner are what make complex designs possible.
